**Weight:** 360.00g

**Dimensions:** 240.00mm x 170.00mm x  
70.00mm

**Price: £49.99**

### Short Description

1 pair of professionally designed and manufactured "**Professional Sports Therapy Massage Mitts**" are therapeutic, multi directional massage tool, designed to enhance sports massage and soft tissue mobilisation techniques. They may also be used as an aid for rehabilitation for allied health and sports massage professionals for more intensive and complex procedures.

They also come with a lovely black velvet like bag to store them in.

### Description

The Professional Physiotherapy Sports Massage Mitt come as a pair of mitts, the two Mitts (Left and Right hand) are manufactured from Medical Grade Silicone and come in a stylish black velvet like bag which are then placed inside a box.

The Mitts are soft enough to ensure that they can be used on the most sensitive and delicate areas without any discomfort. This includes the area on and around the neck and face.

## **The Physical Benefits of the Massage Mitts**

Using the massage mitts will effectively and more comfortably breakdown any muscle tightness and facial tension between the soft tissue layers.

## **Practical Applications**

- Prevent and Relieve soft tissue adhesions.
- Prepares muscles for training, improves delivery of nutrients to your muscles or for pre event tailored warm up.
- Post exercise, reduces recovery time and fatigue after exercise.
- Stimulate healing process within the body.
- Increases sensory feedback.
- Increase blood and lymphatic circulation, clearing of harmful metabolic by-products.
- Reduced localised areas of pain from tight fascia and scar tissue.
- For rehabilitation to increase muscle flexibility and suppleness with improved tissue elasticity.
- Reduces muscle imbalance and enhances biotensegrity by simulating the fascial system.
- Increases active range of movements.
- Self-treating common musculoskeletal conditions.

## **Payment Options**

We offer both Paypal and Stripe payment gateways as options of card or direct PayPal payments.

When you are going through the checkout stage you will be asked to select either Stripe or Paypal.

Paypal will transfer you to their own site away from ours, Whilst payments through our Stripe payment processor will be done from our site.

We take security seriously so hence why we have a secure site with <https://>, you should see the green lock in the left hand side of the address bar.

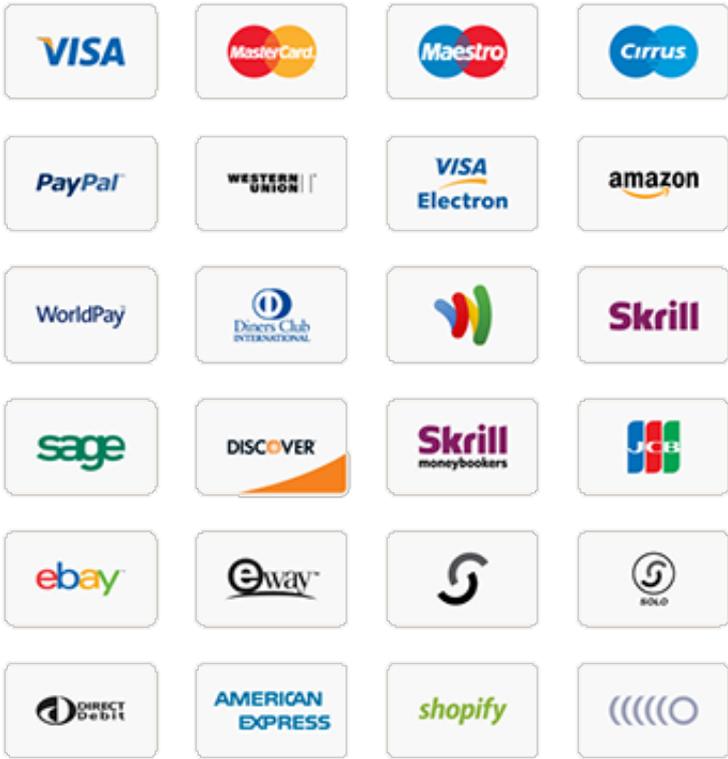

**NO card details are stored on our site - EVER**

*With using a **coupon code**, go through the checkout process and when selecting the payment type, you will see a box there where you enter the coupon code and press the "Apply" button which will deduct the value of the assigned coupon prior to checking out.*

## **Who are Stripe?**

Stripe are one of the card processing companies (Soma Therapies International Ltd) use to process our online card payments.

Through them we can accept most major debit and credit cards from customers in every country

## Postage and Packaging

Our mail carrier is Royal Mail - Parcel Force. We offer both 1-2 day and 3-5 day delivery options that can be selected from within the checkout stage.

The box is packaged for transport in a suitable cardboard box envelope to prevent damage to the Mitts during transportation.

Due to current licensing restrictions, mail can only be delivered to addresses in the United Kingdom.
